

International Survivors of Suicide Loss Day

Saturday, November 23, 2024
Santa Cruz County

Survivors of Suicide Loss Day is the one day a year when people impacted by suicide loss gather in local communities to find comfort and gain understanding as they share stories of healing and hope.

For many survivors, attending a Survivor Day event is an opportunity to discover that they are not alone in their experience of losing someone they know to suicide.

Local Suicide Survivors Day events will be held in Santa Cruz and Monterey. Events include a screening of an Association of Suicide Prevention produced documentary for and about suicide loss survivors, refreshments, group discussion, Q&A and resource sharing.
